

Project Title: CFC PLAYER SUPERVISOR (Website)

Author: Adrien Savoye

Tool Used: Custom-built website (HTML, CSS, JavaScript)

Files Included:

- High-quality screenshots (PNG) of the website
- Summary document (.docx)
- Raw project files (HTML, CSS, JS)

Short Description:

This project is a custom-built website designed for the Vizathon competition.

The website presents data visualizations through an interactive and responsive interface using only HTML, CSS, and JavaScript.

The main focus is on clarity, storytelling, and accessibility, ensuring that key insights are easy to grasp and visually engaging.
